

ZONING CHANGE REVIEW SHEET

CASE: C14-2015-0050
Sunrise Pharmacy

P.C. DATE: August 11, 2015

DISTRICT: 4

ADDRESS: 7104, 7106, and 7108 Bennett Avenue

AREA: 0.658 Acres

OWNER: 11800 Metric Inc. (Abdul Patel)

AGENT: Land Answers, Inc. (Jim Wittliff)

FROM: SF-3-NP

TO: LR-MU-CO-NP

NEIGHBORHOOD PLAN AREA: St. John / Coronado Hills Combined

WATERSHED: Buttermilk Branch Creek

TIA: N/A

DESIRED DEVELOPMENT ZONE: Yes

SUMMARY STAFF RECOMMENDATION:

Staff does not support the request for neighborhood commercial-mixed use-conditional overlay-neighborhood plan (LR-MU-CO-NP) combining district zoning.

ISSUES:

A Valid Petition request was submitted by neighbors of the rezoning request, but currently does not meet the 20% threshold. The petition has 0% of valid signatures. *Please refer to Exhibit A (Petition).*

PLANNING COMMISSION RECOMMENDATION:

August 11, 2015: To grant neighborhood commercial-mixed use-conditional overlay-neighborhood plan (LR-MU-CO-NP) combining district zoning with the following conditions: 1. Development shall be limited to a maximum of 300 vehicle trips per day; 2. 30' of right-of-way shall be dedicated from centerline of Bennett Avenue; 3. A 30' wide vegetative buffer shall be provided along the southern boundary; 4. The following land uses shall be prohibited: restaurant (general) and service station. (9-2) [J. Vela- 1st, T. Nuckols- 2nd, J. Shieh, N. Zaragosa- Nay; J. Stevens- Absent.

DEPARTMENT COMMENTS:

The proposed rezoning tract is comprised of three lots located at the southwest corner of East St. Johns Avenue and Bennett Avenue. These lots are all undeveloped and zoned SF-3-NP. West of the rezoning tract is property zoned CS-MU-CO-NP and developed with multiple land uses, including limited restaurant, limited retail, and what appears to be a bus terminal. South of the rezoning tract are several single family residences and duplexes zoned SF-3-NP. Across Bennett Avenue to the east are more single family residences and duplexes zoned SF-3-NP. North of the rezoning tract, across St. Johns Avenue, are more single family and duplex residential lots zoned SF-3-NP. *Please refer to Exhibits B and C (Zoning Map and Aerial Map).*

The rezoning lots form part of the boundary between commercial land uses near IH 35 and the residential St. Johns neighborhood, which is also reflected on the north side of St. Johns Avenue. These lots were designed to residential standards as part of the St. Johns College Addition subdivision. The lots were sized for duplex or single family residences with frontage onto Bennett Avenue.

City of Austin Transportation Review recommends that, if the requested zoning is granted, site development should be limited to a maximum of 300 vehicular trips per day. Staff also recommends that vehicular access to St. Johns be prohibited as a condition of zoning because St. Johns is an arterial street and a proposed driveway will not have enough frontage to provide adequate spacing from the intersection and the adjacent driveway. Additionally, if the requested zoning is granted, 30 feet of right-of-way should be dedicated from the centerline of Bennett Avenue, in order to accommodate traffic anticipated to be generated by this site. Plans for a future protected bicycle lane along St. Johns may increase the necessary right-of-way dedication and may further affect site design. The right-of-way dedication may be deferred to time of site plan or subdivision. These transportation issues would create a significant impact on Bennett Avenue, a residential collector street.

The subject tract, like the residential lots to the north, south and east, was rezoned from SF-3 to SF-3-NP in conjunction with the development of the St. Johns Neighborhood Plan. The commercial property to the west was also rezoned at that time, from LI and CS to CS-MU-CO-NP, with the condition that a 25-foot wide vegetative buffer be provided adjacent to the residential properties to the east. The zoning for this area was processed under City File C14-2011-0115, was approved by City Council in April, 2012.

EXISTING ZONING AND LAND USES:

	ZONING	LAND USES
<i>Site</i>	SF-3-NP	Vacant
<i>North</i>	SF-3-NP	Single family residential
<i>South</i>	SF-3-NP	Single family residential
<i>West</i>	CS-MU-CO-NP	Retail/commercial, Limited restaurant, Bus terminal
<i>East</i>	SF-3-NP	Single family residential

ROADWAY CHARACTERISTICS:

CITY COUNCIL DATE/ ACTION:

September 10, 2015: To grant postponement by Staff to October 8, 2015, (11-0)

October 8, 2015:

ORDINANCE READINGS: 1st 2nd 3rd ORDINANCE NUMBER:

CASE MANAGER: Heather Chaffin
e-mail: heather.chaffin@austintexas.gov

PHONE: 974-2122

STAFF RECOMMENDATION:

Staff does not support the request for neighborhood commercial-mixed use-conditional overlay-neighborhood plan (LR-MU-CO-NP) combining district zoning.

1. *Zoning changes should promote compatibility with adjacent and nearby uses.*

Commercial land uses are not compatible with the surrounding land uses. Although there is commercial to the west, the block where the rezoning tract is located is entirely residential.

2. *The proposed zoning should promote consistency and orderly planning, and promote an orderly relationship among land uses.*

The boundary between commercial and residential areas is clearly marked in this area, and is reflected in the adopted neighborhood plan. The proposed rezoning would not respect the established boundaries, and is not a transitional area.

SITE PLAN

SP 1 Site plans will be required for any new development other than single-family or duplex residential.

SP 2 Any development which occurs in an SF-6 or less restrictive zoning district which is located 540-feet or less from property in an SF-5 or more restrictive zoning district will be subject to compatibility development regulations.

SP 3 Compatibility Standards. This site is less than 20,000 square feet. There are Single Family uses directly north and south of the property and across Bennett Avenue to the east. Compatibility standards apply to the north, south, and east property lines.

- No structure may be built within 15 feet of the property line.
- No structure in excess of two stories or 30 feet in height may be constructed within 50 feet of the property line.
- No structure in excess of three stories or 40 feet in height may be constructed within 100 feet of the property line.
- A fence, berm, or dense vegetation must be provided to screen adjoining properties from views of parking, mechanical equipment, storage, and refuse collection.
- For a structure more than 100 feet but not more than 300 feet from property zoned SF-5 or more restrictive, 40 feet plus one foot for each 10 feet of distance in excess of 100 feet from the property zoned SF-5 or more restrictive.
- An intensive recreational use, including a swimming pool, tennis court, ball court, or playground, may not be constructed 50 feet or less from adjoining SF-3 property.
- Additional design regulations will be enforced at the time a site plan is submitted.

TRANSPORTATION

TR1. If the requested zoning is recommended for this site, 30 feet of right-of-way should be dedicated from the centerline of Bennett Avenue in accordance with the Transportation Criteria Manual, in order to accommodate traffic anticipated to be generated by this site. This right-of-way dedication is being deferred till the time of subdivision and/or site plan. LDC, 25-6-55; TCM, Tables 1-7, 1-12.

TR2. The bicycle lane on St. Johns is noted in the bicycle plan as a future protected bicycle lane. The design of the bicycle lane may increase the necessary right-of-way dedication and may further affect site design. Additional right-of-way may be required at the time of subdivision and/or site plan.

TR3. If the requested zoning is granted, it is recommended that motor vehicular access to St. Johns be prohibited as a condition of zoning because St. Johns is an arterial street and a proposed driveway will not have enough frontage to provide adequate spacing from the intersection and the adjacent driveway.

TR4. A Neighborhood Traffic Analysis was waived for this case because the applicant agreed to limit the intensity and uses for this development. If the zoning is granted, development should be limited through a conditional overlay to less than 300 vehicle trips per day. [LDC, 25-6-117]

TR5. Nadia Barrera, Urban Trails, Public Works Department and Nathan Wilkes, Bicycle Program, Austin Transportation Department may provide additional comments regarding bicycle and pedestrian connectivity per the Council Resolution No. 20130620-056.

TR6. Existing Street Characteristics:

Name	ROW	Pavement	Classification	Sidewalks	Bike Route	Capital Metro (within ¼ mile)
St. Johns Avenue	83 ft.	43 ft.	Arterial	Yes	Yes	Yes
Bennett Avenue	50 ft.	36 ft.	Collector	No	No	Yes

ENVIRONMENTAL

1. The site is not located over the Edwards Aquifer Recharge Zone. The site is located in the Buttermilk Branch Creek Watershed of the Colorado River Basin, which is classified as an Urban Watershed by Chapter 25-8 of the City's Land Development Code. It is in the Desired Development Zone.
2. Zoning district impervious cover limits apply in the Urban Watershed classification.
3. According to floodplain maps there is no floodplain within or adjacent to the project location.
4. Standard landscaping and tree protection will be required in accordance with LDC 25-2 and 25-8 for all development and/or redevelopment.
5. Trees will likely be impacted with a proposed development associated with this rezoning case. Please be aware that an approved rezoning status does not eliminate a proposed development's requirements to meet the intent of the tree ordinances. If further explanation or specificity is needed, please contact the City Arborist at 974-1876. At this time, site specific information is unavailable regarding other vegetation, areas of steep slope, or other environmental features such as bluffs, springs, canyon rimrock, caves, sinkholes, and wetlands.
6. This site is required to provide on-site water quality controls (or payment in lieu of) for all development and/or redevelopment when 8,000 s.f. cumulative is exceeded, and on site control for the two-year storm.
7. At this time, no information has been provided as to whether this property has any preexisting approvals that preempt current water quality or Code requirements.

WATER UTILITY

FYI: The landowner intends to serve the site with City of Austin water and wastewater utilities. The landowner, at own expense, will be responsible for providing any water and wastewater utility improvements, offsite main extensions, water or wastewater easements, utility relocations and or abandonments required by the proposed land use. Depending on the development plans submitted, water and or wastewater service extension requests may be required. Water and wastewater utility plans must be reviewed and approved by the Austin Water Utility for compliance with City criteria and suitability for operation and maintenance. All water and wastewater construction must be inspected by the City of Austin. The landowner must pay the City inspection fee with the utility construction. The landowner must pay the tap and impact fee once the landowner makes an application for a City of Austin water and wastewater utility tap permit.

PETITION

Date: July 7th, 2015

Rezoning Request Case Number: C14-2015-0050

Address of Rezoning Request: 7104, 7106 & 7108 Bennett Avenue
Austin, Texas 78752

To: Austin City Council

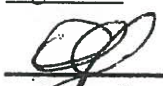

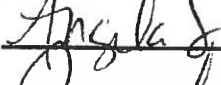

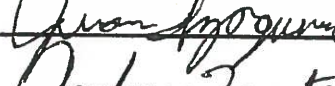

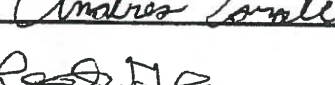

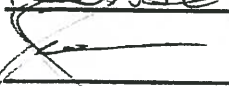

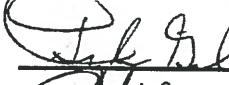

We, the undersigned owners of property affect by the requested zoning change described in the referenced file, do hereby protest against any change of the Land Development Code which would rezone the property to any classification more intense than residential, single family residential lot (SF-4A).

REASONS FOR PROTEST

1. Any commercial use of the land is against the St. John's Future Land Use Map (FLUM) and the adopted neighborhood plan. Specifically:
 - a. A commercial lot that sells alcohol/tobacco would be against the neighborhood's FLUM's goals and focus on crime prevention along the I35 and St. John's (3/26/2015 St. John/Coronado Hills Neighborhood Plan Implementation Tracking Chart, action number 84L, page 26, plan page 38).
 - b. A commercial lot would not support the FLUM's goal of "surveying and determining the existence and extent of potential landmarks and historic districts on the St. John's neighborhood boundary streets of Atkinson Road to the south, E. Anderson the north, Bennett Avenue on the west and Blessing Avenue on the east" (March 26th, 2015 St. John/Coronado Hills Neighborhood Plan Implementation Tracking Chart, action number 182, page 35, plan page 87).
 - c. A commercial lot would not support the FLUM's goal that "residential infill development tools should be utilized by developers/property owners to ensure new housing compliments the character and scale of the existing housing stock" (March 26th, 2015 St. John/Coronado Hills Neighborhood Plan Implementation Tracking Chart, action number 183, page 35, plan page 87).
 - d. A commercial lot would not support the FLUM's goal that "design tools should be utilized by developers/property owners to ensure new housing development strengthens a neighborhood 'sense of space'" (March 26th, 2015 St. John/Coronado Hills Neighborhood Plan Implementation Tracking Chart, action number 184, page 35, plan page 87).

2. Similar adjacent lots on Bennett Street are single family residential ones and no other lot on the street has recently been changed to a commercial lot.
3. Changing any lot on Bennett Street to a commercial lot would set an undesirable precedent because it would change the residential boundary, bringing the commercial properties along the I35 access road into the neighborhood.
4. Changing the lot on Bennett Street to a commercial lot would detrimentally impact the St. John/Coronado Hills neighborhoods' character because the proposed pharmacy would sell alcohol/nicotine products, possibly adding a dangerous element into the neighborhoods.
5. Although the lots in question begin at an intersection, they would push into the middle of Bennett Street, and would unreasonably burden the neighborhood with traffic.
6. Changing it to a commercial lot would be against any neighborhood goal or purpose. *See number one above.*
7. Commercial use of the lot would be against preserving and protecting the historical and cultural significance of the neighborhood.

PETITION

C14-2015-0050

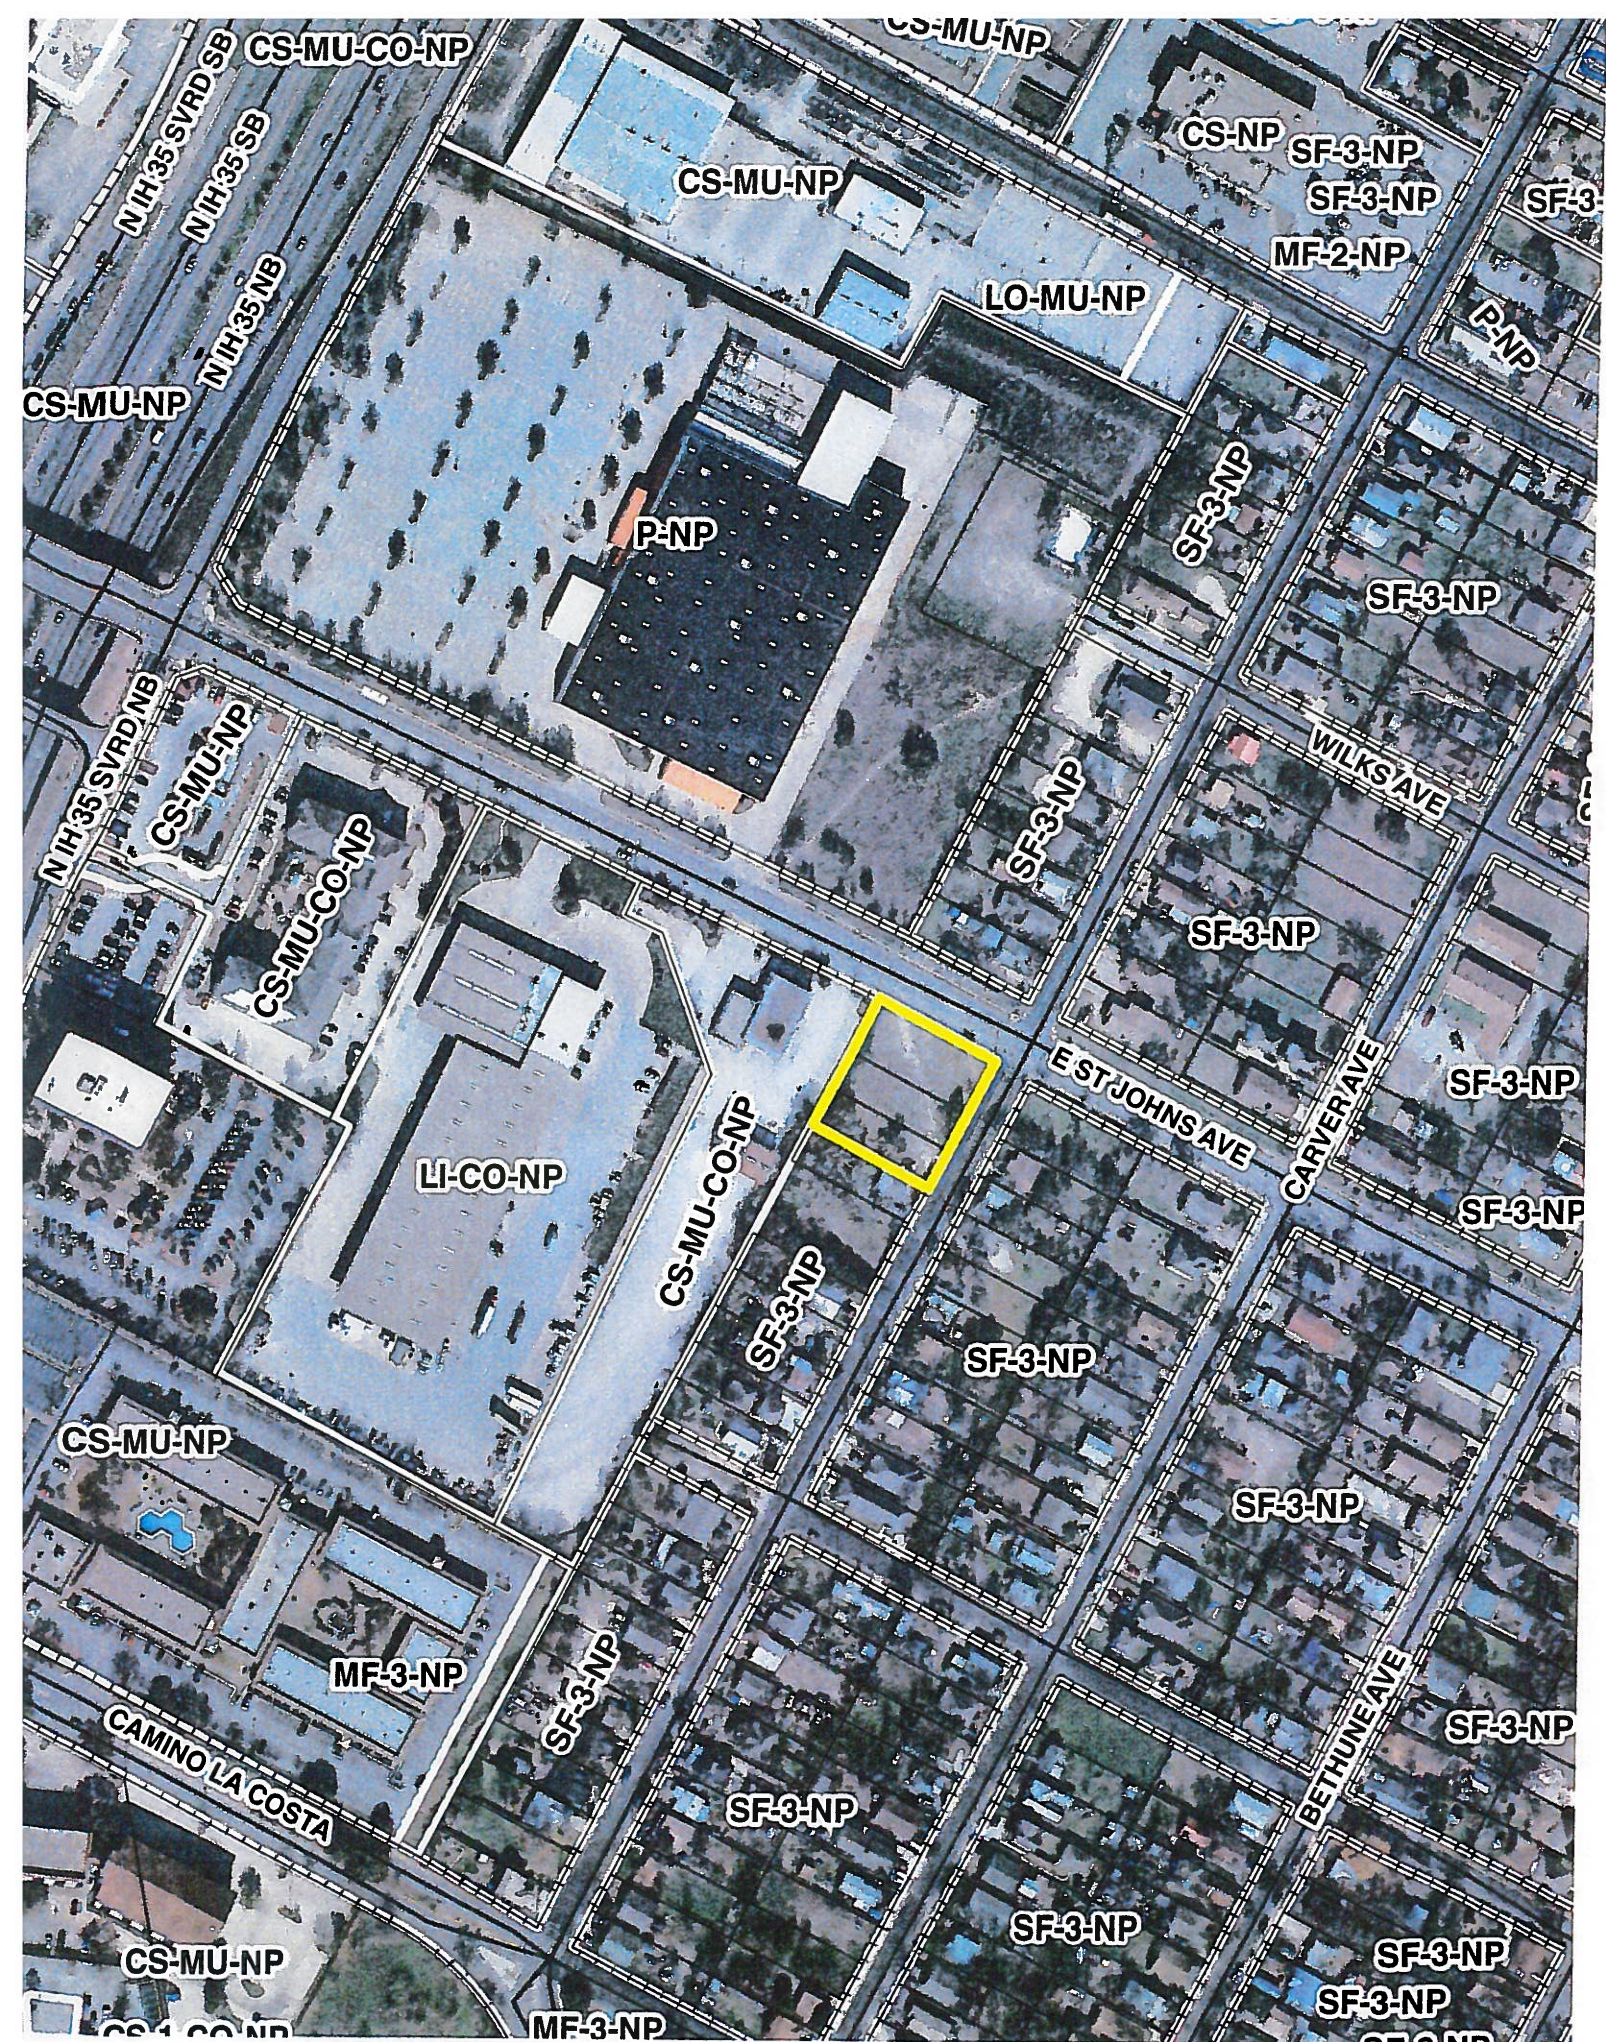

Date: 8/6/2015

Total Square Footage of Buffer: 261188.7207

Percentage of Square Footage Owned by Petitioners Within Buffer: 0.00%

Calculation: The total square footage is calculated by taking the sum of the area of all TCAD Parcels with valid signatures including one-half of the adjacent right-of-way that fall within 200 feet of the subject tract. Parcels that do not fall within the 200 foot buffer are not used for calculation. When a parcel intersects the edge of the buffer, only the portion of the parcel that falls within the buffer is used. The area of the buffer does not include the subject tract.
